

Discover the advantages of the Contractor's Choice Fans. Choose from five models with different air delivery and ducting options for unique installations. Ideal for baths, powder rooms or utility rooms from 45 to 65 sq ft. Both feature our patented curved grille design for efficient air flow and contemporary style. And because one Universal Housing™ fits all models, the Contractor's Choice Series allows a quick and simple CFM upgrade.

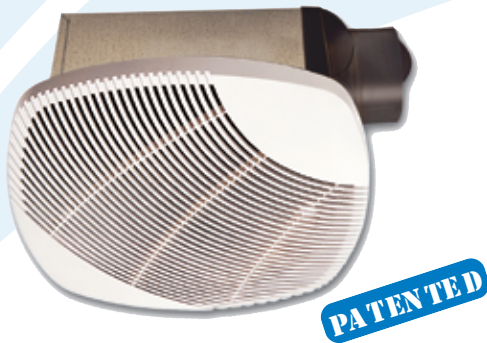

CF Series Fan

Available with multiple ducting options.
